JOURNAL OF PATHOLOGY, VOLUME 131

INDEX OF SUBJECTS

PAGE

2-ACETYLAMINOFLUORENE administered to rats: electron microscope studies of hepatic cell morphology . . . 1
ADENOMA, PLEOMORPHIC SALIVARY, Langerhans' cells 127
AORTA, effect of blood flow on the surface morphology of the human endothelium 55
APUD CELL, NEOPLASIA, case report . . 107
ARTERIES, systemic, in experimental hypoxia in rats 243
ARTICULAR SURFACE, influence of aqueous fixation on 333
AUTORADIOGRAPHY, localisation of particles retained in the trachea of the rat . . 309

BABOONS, influence of aqueous fixation on articular surface morphology: reflected light interference microscope study 333
BASAL CELL CARCINOMA of the skin, metastasising 235
BLOOD FLOW, effect of blood flow on the surface morphology of the human endothelium 55
BONE MARROW, induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory sera: effect of irradiation and thymus or bone marrow cell reconstitution . . . 157
lectin staining of carbohydrates of haemic cells: cells of normal blood and bone marrow and of the myeloid leukaemias 321
BRONCHIAL EPITHELIAL CELLS, atypical cilia induced by elastase 379

CALCIFICATION, heterotopic, production by certain chemical salts 21
CARCINOID TUMOUR, oat cell carcinoma and phaeochromocytoma: multiple APUD cell neoplasia: a case report . . . 107
CHICKS, experimental limb dysmorphogenesis as a model of chemical injury response in undifferentiated embryonic tissues: a light and electron microscopical study 289
CHOLELITHIASIS in guinea-pigs induced by Lincomycin 117
CILIA, atypical, in rabbit bronchial epithelial cells induced by elastase: an ultrastructural study 379

PAGE

CINCHOPHEN-induced ulcerative colitis in dogs 363
COXSACKIE VIRUS B3 perimyocarditis in BALB/c mice: experimental model of chronic perimyocarditis in the right ventricle 97
CRYSTALLINE MATERIAL in paraffin-embedded tissue specimens, a practical method for the identification of . 165
CYCLOHEXIMIDE, acute and persistent ultrastructural changes in rat liver after a single dose of 2-acetylaminofluorene, effect of co-administration of . . 1
CYTOGENETICS and cytophotometric analysis of resident and exudate murine macrophages 175

DIFLUNISAL, decreased ulcerogenic effect of indomethacin in the rat when given in association with 357
DOGS, ulcerative enterocolitis induced by drugs 363
DYSMORPHOGENESIS in limbs produced experimentally as a model of chemical injury response in undifferentiated embryonic tissues: a light and electron microscopical study 289

EAR, regeneration of lymphatic vessels . 209
ELASTASE, atypical cilia in rabbit bronchial epithelial cells induced by . . . 379
ELASTOGENESIS, ultrastructural study of fibroblasts derived from bovine ligamentum nuchae and their capacity for elastogenesis in culture . . . 35
ELECTRON MICROSCOPY, SCANNING, effect of blood flow on the surface morphology of the human endothelium . 55
production of heterotopic calcification by certain chemical salts 21
ELECTRON MICROSCOPY, TRANSMISSION, acute and persistent changes in rat liver after a single dose of 2-acetylaminofluorene: effect of co-administration of cycloheximide 1
atypical cilia in rabbit bronchial epithelial cells induced by elastase . . . 379
experimental limb dysmorphogenesis as a model of chemical injury response in undifferentiated embryonic tissues . 289

PAGE

ELECTRON MICROSCOPY, TRANSMISSION *cont.*
fibroblasts derived from bovine ligamentum nuchae and their capacity for elastogenesis in culture 35
Langerhans' cells in a pleomorphic adenoma of submandibular salivary gland 127
localisation of particles retained in the trachea of the rat 309
mesangiocapillary glomerulonephritis in lambs: diffuse glomerulonephritis in newly born Finnish Landrace lambs . 65
oat cell carcinoma, phaeochromocytoma and carcinoid tumours: multiple APUD cell neoplasia: a case report . 107
practical method for the identification of particulate and crystalline material in paraffin-embedded tissue specimens . 165
unusual case of supraclavicular and colonic malakoplakia 193
EMBRYOLOGY, comparison of the toxic effects of dehydroheliotridine and heliotrine in pregnant rats and their embryos 339
experimental limb dysmorphogenesis as a model of chemical injury response in undifferentiated embryonic tissues: a light and electron microscopical study . 289
ENDOTHELIUM, effect of blood flow on the surface morphology 55
ENDOTOXIN effects on the histology of intact and athymic mice infected with Plasmodium vinckei petteri 221
ENTEROCOLITIS in dogs induced by drugs . 363
ENZYME HISTOCHEMISTRY of metastasising basal cell carcinoma of the skin . . 235
ESCHERICHIA COLI, unusual case of supraclavicular and colonic malakoplakia: a light and ultrastructural study . . 193

FIBROBLASTS derived from bovine ligamentum nuchae and their capacity for elastogenesis in culture: an ultrastructural study 35

GALL-BLADDER, observations in Lincomycin-induced cholelithiasis in guinea-pigs 117
GASTRIC MUCOSA, decreased ulcerogenic effect of indomethacin in the rat when given in association with Diflunisal . 357
GLOMERULONEPHRITIS, MESANGIOCAPILLARY, ultrastructure and imunopathology of diffuse glomerulonephritis in newly born Finnish Landrace lambs 65
GUINEA-PIG, delayed hypersensitivity pleurisy: demonstration of reduced migration ability of macrophages *in vitro* 137

PAGE

observations in Lincomycin-induced cholelithiasis 117
regeneration of lymphatic vessels in the ear 209

HEART, Coxsackie virus B3 perimyocarditis in BALB/c mice: experimental model of chronic perimyocarditis in the right ventricle 97
noradrenaline levels and morphologic alterations of myocardium in experimental protein–calorie malnutrition . 83
HELIOTRINE and dehydroheliotridine: comparison of toxic effects in pregnant rats and their embryos 339
HYPERSENSITIVITY pleurisy in guinea-pigs: demonstration of reduced migration ability of macrophages *in vitro* . . 137
HYPOXIA, experimental in rats: study of systemic arteries 243

IMMUNOHISTOCHEMISTRY, characterisation of cells involved in dermatopathic lymphadenopathy 145
lectin staining of carbohydrates of haemic cells: the cells of normal blood and bone marrow and of the myeloid leukaemias 321
nodular form of polymyositis: a possible manifestation of vasculitis . . . 183
IMMUNOPATHOLOGY and ultrastructure of diffuse glomerulonephritis in newly born Finnish Landrace lambs . . 65
INDOMETHACIN, decreased ulcerogenic effect of indomethacin in the rat when given in association with Diflunisal . . 357
ulcerative enterocolitis in dogs induced by drugs 363
INTERFERENCE MICROSCOPY, influence of aqueous fixation on articular surface morphology 333

JOINTS, reflected light interference microscope study of influence of aqueous fixation on articular surface morphology 333

LAMBS, newly born Finnish Landrace: ultrastructure and immunopathology of diffuse glomerulonephritis 65
LANGERHANS' CELLS in a pleomorphic adenoma of submandibular salivary gland 127
LECTIN staining of carbohydrates of haemic cells: the cells of normal blood and bone marrow and of the myeloid leukaemias 321
LEUKAEMIA, lectin and blood cells . . 321
LIGAMENTUM NUCHAE, elastogenesis by fibroblasts 35

PAGE

LINCOMYCIN-induced cholelithiasis in guinea-pigs 117
LIVER, acute and persistent ultrastructural changes in the rat after a single dose of 2-acetylaminofluorene: effect of co-administration of cycloheximide . . 1
effects of endotoxin on the histology of intact and athymic mice infected with Plasmodium vinckei petteri . . . 221
LUNG DEFENCE, localisation of particles retained in the trachea of the rat . . 309
LYMPHADENOPATHY, normal and pathological lymph nodes exhibiting the features of dermatopathic lymphadenopathy analysed by immunochemical methods 145
LYMPHANGIOMAS of spleen 75
LYMPHATICS, regeneration of lymphatic vessels in the ear of the guinea-pig . 209

MACROPHAGES, cytogenetic and cytophotometric analysis of resident and exudate murine macrophages . . 175
delayed hypersensitivity pleurisy in guinea-pigs: demonstration of reduced migration ability of macrophages *in vitro* 137
induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory sera: effect of irradiation and thymus or bone marrow cell reconstitution 157
MALAKOPLAKIA in the colon: a light and ultrastructural study 193
MALNUTRITION, PROTEIN CALORIE, noradrenaline levels and morphologic alterations of myocardium in experiments 83
MICE. Coxsackie virus B3 perimyocarditis: experimental model of chronic perimyocarditis in the right ventricle . . 97
cytogenetic and cytophotometric analysis of resident and exudate macrophages . 175
effects of endotoxin on the histology of intact and athymic mice infected with Plasmodium vinckei petteri . . . 221
production of heterotopic calcification by certain chemical salts 21
MICHAELIS-GUTMANN BODIES, unusual case of supraclavicular and colonic malakoplakia: a light and ultrastructural study 193
MICROINCINERATION, practical method for the identification of particulate and crystalline material in paraffin-embedded tissue specimens . . . 165
MITOGENS, MACROPHAGE, induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory sera: effect of irradiation and thymus or bone marrow cell reconstitution . . 157

NORADRENALINE levels and morphologic alterations of myocardium in experimental protein-calorie malnutrition . 83

OAT CELL CARCINOMA, phaeochromocytoma and carcinoid tumours: multiple APUD cell neoplasia: a case report 107

PHAEOCHROMOCYTOMA, oat cell carcinoma and carcinoid tumours: multiple APUD cell neoplasia: a case report . 107
PLASMODIUM VINCKEI PETTERI infection: effects of endotoxin on the histology of intact and athymic mice 221
POIKILODERMA ATROPHICANS VASCULARE and the draining lymph node, exhibiting typical features of dermatopathic lymphadenopathy, investigated . . 145
POLYMYOSITIS, nodular form: a possible manifestation of vasculitis . . . 183
PREGNANCY, comparison of the toxic effects of dehydroheliotridine and heliotrine in pregnant rats and their embryos . . 339

RABBITS, atypical cilia in bronchial epithelial cells induced by elastase: an ultrastructural study 379
RAT, acute and persistent ultrastructural changes in the liver after a single dose of 2-acetylaminofluorene: effect of co-administration of cycloheximide . . 1
comparison of the toxic effects of dehydroheliotridine and heliotrine in pregnant rats and their embryos . . 339
decreased ulcerogenic effect of indomethacin when given in association with Diflunisal 357
induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory sera: effect of irradiation and thymus or bone marrow cell reconstitution 157
localisation of particles retained in the trachea 309
noradrenaline levels and morphologic alterations of myocardium in experimental protein–calorie malnutrition . 83
systemic arteries in experimental hypoxia 243
REGENERATION of lymphatic vessels in the ear of the guinea-pig 209

SALIVARY GLAND, Langerhans' cells in a pleomorphic adenoma of submandibular 127
SKIN, enzyme histochemistry of metastasising basal cell carcinoma of . . . 235

PAGE

SPLEEN, distinctive multiple lymphangiomas 75

STOMACH, decreased ulcerogenic effect of indomethacin in the rat when given in association with Diflunisal . . . 357

SYNOPSES OF PAPERS—Pathological Society of Great Britain and Ireland, 140th meeting; 3–5 January 1980

Metastatic colonisation potential of primary tumours inoculated by different routes, by D. Tarin and Janet E. Price . 249

Macrophages and metastatic potential in mouse mammary tumours, by J. R. G. Nash, Janet E. Price and D. Tarin . 249

Breast-specific antigen recognition by non-mammalian antibodies, by A. Leathem 250

The distribution of epithelial membrane antigen in non-neoplastic tissues, by M. G. Ormerod, J. P. Sloane and S. F. Imrie 251

The distribution of epithelial membrane antigen in human neoplasms and its relevance to diagnostic tumour pathology, by J. P. Sloane, M. G. Ormerod, K. Steele and S. F. Imrie . . 251

Parenchymal cell mitosis and apoptosis in the "resting" human breast, by D. J. P. Ferguson and T. J. Anderson . . 251

Immunocytochemical studies of the blood group H, A and I antigens in gastric tissues of patients with gastric ulcer, by T. Feizi, A. Kapadia and G. Slavin . 252

The effects of gastric juice and its components on eosophageal epithelium, by D. Hopwood, M. Bateson and G. Milne 253

Anatomical patterns of parenchymal necrosis in acute pancreatitis—a post mortem review, by A. K. Foulis . . 253

Transplantation and organ culture of whole neonatal isogeneic rat pancreas, by I. G. Banks, J. M. Sloan and K. D. Buchanan 254

The immunological effect of a high intake of soyabean protein in man, by N. J. Goulding, M. J. Gibney, P. J. Gallagher, Jane Morgan, D. B. Jones and T. H. Taylor 254

Chronic ulcerative enteritis, by I. L. Brown, P. R. Mills and G. Watkinson . 255

Evidence of Shwartzman reaction in pseudomembranous colitis, by Wilhelmina M. H. Behan and P. R. Mills . 255

Peptidergic innervation of experimental Chagas' disease, by A. E. Bishop, J. M. Polak, R. H. Albuquerque, G. P. MacGregor and S. R. Bloom . . 255

Disseminated intravascular coagulation following intravenous injection of Corynebacterium parvum in the rat, by P. W. Johnston, A. W. Thomson and J. G. Simpson 256

The effect of human fibronectin in platelet-collagen adhesion, by R. A. Sochynsky, B. J. Boughton, J. Burns, B. C. Sykes and J. O'D. McGee . . . 256

The effect of diamide, a thiol-oxidising agent, on isolated adult rat myocytes, by A. A. Norouha-Dutra and E. M. Steen 257

The effect of isoprenaline on isolated adult rat myocytes, by E. M. Steen, A. A. Norouha-Dutra and N. Woolf . . 257

Distribution of early atheroma in the coronary arteries, by W. A. Seed, B. Fox, K. R. James and B. Morgan . 258

Endothelial changes in response to short-term exposure to cigarette smoke, by N. Woolf, P. M. Rowels and N. J. Wilson Holt 258

Experimental mesangial proliferative glomerulonephritis, by W. Lawler . 259

Proliferative glomerulonephritis induced in mice by Corynebacterium parvum, by J. S. Uff and D. J. Evans . . 259

Does co-storage of amine and peptide in a single cell affect antibody binding? by A. M. J. Buchan, N. Christofides, S. Kishimoto, J. M. Polak and S. R. Bloom 260

VIP: a major pathway linking the amygdaloid complex and hypothalamus, by G. W. Roberts, P. W. Woodhams and J. M. Polak . . 260

Ultrastructure of spontaneous pituitary neoplasms in the rat, by S. K. Majeed, C. Gopinath and G. Magnusson . . 261

Neuroendocrine cell proliferation in the rat lung following asbestos inhalation, by N. F. Johnson, J. G. Wagner and H. A. Wills 261

Ontogeny of the gut neuroendocrine system in man, by A. M. J. Buchan and J. M. Polak 262

Many temporal artery biopsies are unnecessary, by C. J. Allsop and P. J. Gallagher 262

Mucin vacuoles in atypical lobular proliferations of human breast, by R. J. Steele and T. J. Anderson . . . 263

The localisation and associated cytological effects of methyl mercury in rat cerebellum, by J. R. Foster and M. G. Wright 264

Low temperature scanning electron microscopy (SEM) of tissue surfaces, by D. L. Gardner, K. Oates and Patricia O'Connor 264

PAGE

Sub-cellular changes associated with carcinogenesis in the urothelium of retinoid- or placebo-fed rats, by E. D. Massey, Alice E. Harvey, Janina Chowaniec and R. M. Hicks . . 265

Immunoperoxidase staining of the Dutcher–Fahey intranuclear inclusion body in a case of Waldenström's macroglobulinaemia, by J. F. Boyd and E. McWilliams 265

Immunohistochemical demonstration of mouse marcophages by light and electron microscopy, by W. D. Thompson, J. Richmond and R. S. Patrick . . 266

Serum uracil levels in acute childhood and in acute and chronic adult leukaemia, by T. E. Parry 266

The aural polyp, by I. Wright and J. S. Davies 267

Oestrogen replacement therapy: morphological comparison of the mouse and human endometrium, by Lucienne Papadaki and J. O. W. Beilby . . 267

Immunohistochemical characterisation of histiocytic tumours, by P. Meister and W. Nathrath 267

The Langerhans granule and fibrohistiocytic tumours, by A. L. C. McLay, F. M. McGregor and P. G. Toner . . 268

Plasminogen activator production (fibrinolysis) of rat brain cells: the sequential acquisition of this property during malignant transformation, by T. A. Hince and J. P. Roscoe . . . 268

Oral epithelial cell kinetics in iron deficiency, by J. S. Rennie and D. G. MacDonald 268

The effect of actinomycin D on chemically-induced epidermal hyperplasia, by D. J. Kerr 269

OTS and saccharin in the promotion of bladder cancer in the rat, by Jean Hooson and R. Marian Hicks . . 269

The effect of retinoid-containing diets on survival and pathology of rats treated with high doses of the bladder carcinogen, *N*-butyl-*N*-(4-hydroxybutyl) nitrosamine, by Janina Chowaniec, E. D. Massey, J. Turton and R. M. Hicks 270

Retinoid intoxication (hypervitaminosis A) induced by *N*-ethylretinamide, by J. A. Turton, Jean Gwynne and R. Marian Hicks 271

Characteristics of human transitional cell carcinoma of the bladder as studied by electron microscopy and histochemistry, by M. E. Herd and G. Williams 271

The appearance of blood-borne material in hepatocytes after clearance by Kupffer cells, by J. W. B. Bradfield and H. R. J. Payne 272

Synthesis of collagen and Clq by fibroblasts, by K. A. Fleming and J. O'D. McGee 272

The role of collagen in the organisation and regulation of hepatocyte function, by A. Jack and J. O'D. McGee . . 273

Circulating immune complexes in primary biliary cirrhosis (PBC), by G. P. Sandilands, I. Galbraith, Fiona M. Reid, P. Mills and R. N. M. MacSween 273

Hepatic nodules after portacaval anastomosis in rats, by K. Weinbren and S. L. A. Washington 274

Dysplasia and neoplasms in the liver of methyltestosterone treated mice, by Milena Lesna, S. Snowball and W. Taylor 274

Copper in alcoholic liver disease, by Anne Berresford, J. P. Sunter, Valeria Harrison and Milena Lesna . . . 275

Mallory bodies: immunohistochemical detection by traditional and monoclonal antibodies to a non-prekeratin component, by J. A. Morton, K. A. Fleming, A. McMichael, J. Bastin, N. Mohamed and J. O'D. McGee . . 275

Liver changes in rats after streptozotocin administration, by I. Lauder, J. Abascal and I. D. A. Johnson . . 276

The effect of temperature on the rate of healing of experimental bone defects in mouse tail vertebrae, by Fatima Mili and E. A. Wright 276

Giant cell tumour of bone—studies in host/tumour interaction, by Jean Pringle and P. Byers 277

The distribution of fibronectin in the synovium in osteoarthritis and rheumatoid disease, by D. L. Scott, C. J. Morris and K. W. Walton . . . 277

The long-term consequences of the effects of environmental pollutants on bone remodelling activity, by C. Anderson and K. D. Danylchuk 278

Demonstration of immunoglobulin and complement in resin-embedded tissue, by A. G. MacIver, J. Giddings, R. L. Griffin and C. B. Inman . . . 278

Immunoperoxidase quantitation, by D. A. Millar and E. D. Williams . . . 279

DNP as a hapten in immunolocalisation studies, by B. Jasani and E. D. Williams 279

Fetal haemopoiesis in adult spleens in leukaemia, lymphoma and myeloproliferative disorders, by J. C. E. Underwood and V. J. M. Dangerfield . . 280

PAGE

SYNOPSES OF PAPERS *cont.*
Immunoperoxidase staining of the Dutcher-Fahey intranuclear inclusion body in a case of Waldenstrom's macroglobulinaemia, by J. F. Boyd . . 280
Inhibition of complement component secretion by human monocytes, by K. Whaley, D. Lappin and A. Moseley . 281
Alpha-1-antitrypsin in malignant cells of monocyte/macrophage derivation, by P. Isaacson, D. B. Jones, G. H. Millward-Sadler and Mary A. Judd . 281
Alpha-1-antitrypsin in tissues from normal and genetically deficient patients, by G. H. Millward-Sadler, P. Isaacson, J. Giddings, D. B. Jones and M. Judd . 282
Human lymphoid cell lines—I—Characterisation, by Heather M. Burrow, I. D. Barrett, N. S. Panesar and C. C. Bird 282
Human lymphoid cell lines—II—Glucocorticoid binding capacity, by I. D. Barrett, N. S. Panesar, Heather M. Burrow and C. C. Bird . . . 283
Human lymphoid cell lines—III—Glucocorticoid responsiveness, by C. C. Bird, Heather M. Burrow, I. D. Barrett and N. S. Panesar 283
The macrophage origin of Reed–Sternberg cells; an immunohistochemical study, by S. V. Payne, D. H. Wright, K. J. M. Jones and M. A. Judd . . 284
Histogenesis of Hodgkin's and non-Hodgkin's lymphomas: ultrastructural and immunohistological evaluation, by J. A. Morris and C. C. Bird . . . 284
Quantitative analysis of non-Hodgkin's lymphoma, by R. W. Blewitt, C. R. Abbott and C. C. Bird . . . 285
SYNOPSES OF PAPERS—Joint Symposium with the Royal College of Pathologists—The cell surface—function in disease processes.
Composition of cell surface, by M. S. Bretscher 285
Some recent progress in the analysis of malignancy by cell fusion, by H. Harris 286
Cell surface fibronectin (LETS) and its role in disease, by J. Burns and J. O'D. McGee 286
The lymphocyte surface: structural aspects, by A. Williams . . . 286
T cell surface immunoglobulin and its function, by D. Y. Mason . . . 287

TISSUE CULTURE, ultrastructural study of fibroblasts derived from bovine ligamentum nuchae and their capacity for elastogenesis 35
THYMUS, effects of endotoxin on the histology of intact and athymic mice infected with Plasmodium vinckei petteri . 221
induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory sera: effect of irradiation and thymus or bone marrow cell reconstitution 157
TRACHEA, localisation of particles retained in the trachea of the rat . . . 309
TUMOURS, HUMAN, INDIVIDUAL, distinctive multiple lymphangiomas of spleen . 75
enzyme histochemistry of metastasising basal cell carcinoma of the skin . . 235
Langerhans' cells in a pleomorphic adenoma of submandibular salivary gland 127
oat cell carcinoma, phaeochromocytoma and carcinoid tumours: multiple APUD cell neoplasia: a case report . 107

VASCULITIS, nodular form of polymyositis: a possible manifestation of . . . 183
VIRUS, Coxsackie B3, perimyocarditis in BALB/c mice: experimental model of chronic perimyocarditis in the right ventricle 97

X-IRRADIATION, induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory sera: effect of irradiation and thymus or bone marrow cell reconstitution . . . 157
X-RAY MICROPROBE ANALYSIS, practical method for the identification of particulate and crystalline material in paraffin-embedded tissue specimens . 165
production of heterotopic calcification by certain chemical salts 21
